

Section 4(f) *de minimis*

FDOT is pursuing a Section 4(f) *de minimis* finding for potential impacts to the LaBelle Municipal Docks.

The project team examined the project area for properties that may be affected under Section 4(f) of the Department of Transportation Act of 1966. There are several publicly-owned parks or recreation areas adjacent to the project limits. The Recommended Alternative will require permanent use of approximately 650 square feet of the LaBelle Municipal Dock property, causing minor impacts to landside facilities and affecting access. However, based upon the overall minor level of impact, planned mitigative actions and coordination with and concurrence from the City of LaBelle, FDOT is pursuing a Section 4(f) *de minimis* finding for these potential impacts to the LaBelle Municipal Docks. Implementation of proposed mitigation for these potential impacts will result in no adverse effects to the activities, features, or attributes that make the LaBelle Municipal Docks eligible for Section 4(f) protection.

This hearing provides the opportunity for public comment on the project's use of the LaBelle Municipal Docks.
